Big crops—new problems (ed)..... 627
Crop average to be cut (N)..... 610
Farmers' bonus (ed)..... 627

AGRICULTURAL ADJUSTMENT ADMINISTRATION:
Eggs may be bought to hold market (N).. 611
Air cleaner, electrostatic (e)..... 268
Air cleaning gun (e)..... 38
Air compressor (e)..... 607

AIR CONDITIONING:
Advances in brewing technology. G. B. Sippel *646
Borden's Riverside milk plant.....*479
Brewers save power by better heat balance*250
Dried fruit storage improved by fumigation, air conditioning and better handling. W. S. Richert.....*502
Extreme accuracy is costly—do you meet it? (ed) 685
Filtering the air removes organisms and betters quality of margarin. H. W. Vahlteich *191
Fire doors in air conditioning dust. Sam Henry *663
Heating and cooling device (e).....*156
How chocolate coating should be cooled. Mario Gianini.....*188

Altitude affects food processing. M. A. Barmore *508

American Association of Cereal Chemists:
Minneapolis meeting (N)..... 413

American Bakers Association
Annual meeting (N)..... 730

American Bottlers of Carbonated Beverages
Annual meeting (N)..... 730

American Chemical Society:
Flavor symposium 314
Papers on food at meeting (N)..... 276

American Society of Bakery Engineers:
Chicago meeting (N)..... 216
Antimony in food poisoning (A)..... 206

New York convention (N)..... 48

AWARDS:
Dr. G. R. Minot award for nutrition (N).. 48

B

BACTERIA:
Boric acid as germicide (A)..... 266
Contamination of sugar (A)..... 425
Fat spoilage from microbial causes (A)..... 152
Filtering the air to remove organisms betters quality. H. W. Vahlteich.....*191
Freedom from infection in food plants. R. N. Bostock.....*438
Germicidal properties of chlorine compounds (A) 477
How bacteria act in fat deterioration (A).. 723
How to avoid spoilage of fats (A)..... 545
Making glass enclosures effective (ed).... 239
Margarine maker finds mold and bacterial control cuts spoilage loss. L. V. Strasburger *138
Mold inhibitors for bread (A)..... 264
Ozone in food storage, A. W. Ewell.....*638
Paints may help bacteria control. S. S. Epstein *386
Pastry poisoning caused by rats (A)..... 152
Poultry and public health (A)..... 349
Spoilage in bread can be avoided.....*178
Spoilage of non-acid canned foods. E. J. Cameron 182
Tests in breweries show germicidal paints retain protective powers. S. S. Epstein..*513

BAKERIES AND BAKING:
A.S.B.E. meet (N)..... 216
Cake baked at high altitude different from cake baked at sea level. M. A. Barmore..*508
Cake baking should be done by bakers. H. S. Coith..... *14
Crackers of light texture (P)..... 87
Diastatic malt extract manufacture important to baking industry. A. L. Nugey.....*253
Federal Trade Commission accuses bakers (N) 610
Flow diagrams of bread processing..... 696
How shall mainenance be done..... 29
Lecithin emulsions stabilized by lactic or citric acid (P)..... 721
Mixing doughs in a vacuum (A)..... 664
Pastry poisoning caused by rats (A)..... 152
Peroxide leavening process (P)..... 87
Russia bakes bread on a national scale....*376
Russian bread factory. W. W. Nashtshokin*432
Salt for baking (P)..... 721
Short cake in package.....*324
Swelling behavior of flour (A)..... 457
Tests for consumer preference (A)..... 721
To restrain protein degradation during dough fermentation (P)..... 664

BOTTLES:
Milk bottle hooding machine (e).... 332
Scientific control applied to beverage bottling. Max Levine....*568

BREAD:
Bacterial spoilage can be avoided....*178
Crust color improved in corn sugar breads (P) *153
Decline in wheat consumption halted. E. G. Montgomery *632
Flow diagram of bread processing.... 696
Germans and bread consumption (ed) 59
Heat treatment of milk improves milk bread. Oscar Skovholt.... *132
Mold inhibitors for bread (A).... 264
New theory of bread staling (P).... 605
"Rope" spores in milk. C. W. Schmitt... 406
Rotterdam experiments with bread freezing. H. J. Onnes.... *584
Russia bakes bread on a national scale....*376
Russian bread factory. W. W. Nashtshokin*432
Tests for consumer preference (A).... 721

BREWING:
Advances in brewing technology. G. B. Sippel *646
Air loads brewery trucks and unloads them. *78
Better heat balance for brewers save power.*250
Boric acid not satisfactory as brewery germicide (A).... 266
Flow diagrams of malt syrup.... 699
How diastatic malt extract is made. A. L. Nugey *253
Malt steeping. Theodore Markovitz....*194
Tests in breweries show germicidal paints retain protective powers. S. S. Epstein..*513
Bridge lifts for trucking....*261

BUTTER:
Aeration and pressure for better flavor in butter (N).... 153
Aroma of butter (A).... 205
Churn cleaning methods (A).... 153
Flavor of butter.... 315
Monogrammed restaurant butter....*273
Oat flour and butter flavor (A).... 722
Treated parchment for print butter (A)... 721

C

California Packing gets desist order (N).... 464

CANNING AND PRESERVING:
Apples canned 160
Apples improve apricots.... 273
Apricot nectar.... 95
Automatic control of pressure....*549
Bake beans in glass bean pots....*711
California canning strike issues.... 310
Canapes in a variety box for cocktails....*325
Candied fruits and peels canned....*658
Cannery waste-treatment....*430
Canning machine (e)....*207
Catalysts for hydrogenating sardine oil (A). 723
Cereal porridge canned (P).... 457
Cherry standards revised (N).... 536
Citron fermenting and preserving (A).... 331
Codfish in vacuum tin.... 95
Color of tomato products (A).... 423
Compartment cans hold whole meal ready for heating (P).... 457
Cooking pears and apples (A).... 87
Corn canning equipment (e).... 267
Corn holds its vitamin C (A).... 331
Corn on cob in can....*658
Device for key-opened cans....*658
Electronic can tester. C. C. Bawden....*454
Fish product of fish, butter, cream in cans.*519
Free promotion for canners.... 42
Freezing sweet corn, then shelling it whole (P) 528
Frozen milk. R. S. McBride.... *4
